

Three human-body flashcard questions

Trace a digestive route, locate nutrient absorption and match a bone to its body region.

01 Follow the route of food after the stomach

In a simple digestive-system diagram, which organ should come immediately after the stomach?

- ▢ Large intestine
- ▢ Small intestine

02 Which organ absorbs most nutrients from food?

In a basic digestive-system quiz, choose the place where most nutrient absorption takes place.

- ▢ Esophagus
- ▢ Small intestine

03 Match the femur to the correct flashcard

An anatomy card names the femur. Which body region belongs on the reverse side?

- ▢ Thigh
- ▢ Forearm
