

Logic, number sequences and direction puzzles

Arrange three cups, complete a growing sequence and track a series of turns.

01 Find the only arrangement that fits two clues

A red cup is left of a blue cup. A green cup is right of the blue cup. Which left-to-right order fits both clues?

- ▢ Green, red, blue
- ▢ Red, blue, green

02 Find the missing step in a growing sequence

The numbers are 3, 5, 8, 12. If the differences keep growing by one, what comes next?

Answer in next number

03 Decode a rotated direction sequence

Start facing north. Turn right, turn right again, then turn left. Which way are you facing now?

- ▢ East
- ▢ West
