Quick reasoning challenges with answers

Spot an exception, follow a number sequence and obey two instructions at once.

01 Catch the exception in a quick reading round

The instruction says “Choose the only word that does not begin with the same letter as the others.” Read bird, boat, branch, plum. Which one fits the instruction?

- ▢ Plum
- ▢ Branch

02 Keep one target in mind during a number round

Start at 9, add 4, subtract 2 and double the result. What is the final number?

Answer in points

03 Read a set of two instructions in order

Imagine three cards numbered 1, 2 and 3. Put the highest card first, then put the lowest card last. Which order follows both instructions?

- ▢ 3, 2, 1
- ▢ 3, 1, 2
