Borrowing screen time from tomorrow

Work out tomorrow's allowance, draft a family borrowing rule and total the minutes moved between days.

01 See tomorrow's cost before borrowing screen time

Tomorrow's starting allowance is 45 minutes. If you borrow 10 of those minutes today, how many remain for tomorrow in this example?

Answer in minutes

02 Put a screen-time borrowing rule in plain words

Draft one sentence an adult and a teen could both use to explain where an extra ten minutes comes from in a borrowing system.

Write the family rule

03 Add up small screen-time loans across a week

Your log shows borrowing 5, 10 and 5 minutes on three separate days. What is the total time moved between days?

Answer in minutes
